The Student Affairs Department is the main channel that links students with the university faculty and administration. Student Affairs aims to meet the students' needs and to solve their issues in line with AUM core values.

Overseen by the Director of Student Affairs, Students have full-time access to advisers who offer a variety of services that benefit the student on an academic and personal level. The department offers counseling and guidance in order to enrich the student experience and sculpt their academic achievements.

Student Affairs Department guides and administers the students from the time they are welcomed for orientation to the time they graduate. It ensures that students are equipped with the advanced tools that enrich and cultivate their potentials and enhance their creativity.
